

Rameshwar sangappa Barole

QA Engineer

Nagpur, India | (+91) 7218435876 | rameshwarbarole105@gmail.com | <https://github.com/Rameshwar002>

PROFESSIONAL SUMMARY

QA Engineer with experience in designing, developing, and executing automated test scripts. Skilled in various automation frameworks and tools, with a strong focus on enhancing software quality and reducing time-to-market. Excellent problem-solving abilities and a passion for delivering high-quality software solutions.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services

Nagpur
4.12.2023 – Current

- Developed and maintained automated test scripts using Selenium WebDriver, improving test coverage.
- Built automation solutions using Java and Python to streamline repetitive workflows.
- Collaborated with development teams to integrate automated tests into the CI/CD pipeline, reducing regression testing time.
- Collaborated with cross-functional teams to identify and document defects using JIRA, improving overall software quality.
- Conducted regression testing for new releases, reducing post-release defects.
- Conducted thorough code reviews and provided constructive feedback to improve the quality of scripts.
- Participated in daily stand-ups and sprint reviews, collaborating closely with QA and development teams.

AWARDS & ACHIEVEMENTS

- Received On-the-Spot Award (2024) for resolving critical data processing issues under tight deadlines.
- Awarded Applause for the Team (2024) for contribution to high-quality and on-time project delivery.
